## 24-HOUR CRITICAL CARE KARDEX

PATIENT SNAPSHOT / SYSTEM REVIEW / LABS / DEVICES / ACTIVE THERAPY

**Patient:** _____ **MRN:** _____ **Bed:** _____

Period: ___ / ___ / ___ ___:___

DOB / age: _____ Sex: ___ Weight: ___ kg Consultant: _____

To: ___ / ___ / ___ ___:___

Diagnosis / procedure: _____ Admission date/time: _____ From: _____

History: _____ Current concern: _____

**ALLERGIES / REACTION: _____ CODE STATUS: _____ ISOLATION / ORGANISM: _____**

## 01 SYSTEM REVIEW

Assessed date/time: _____

| | |
|---|---|
| **NEURO** | GCS E__ V__ M__ Pupils R/L___ RASS___ Pain/tool___ |
| **CARDIAC** | Rhythm___ HR___ BP___ MAP___ Goal___ EF___ |
| **RESP** | RA / NC / Mask / HFNC / NIV / MV Flow___ FiO2___ |
| **AIRWAY** | ETT / Trach Size___ Depth___ Cuff___ SpO2___ |
| **VENT** | Mode___ VT___ RR___ PEEP___ Secretions___ |
| **GI / RENAL** | Diet / route___ Feed / flush___ BM___ RRT___ |
| **SKIN / RISK** | Injury site/stage___ Braden___ Falls___ Turn plan___ |

## 02 LABS

Collected: date/time _____

Units: _____ ABG time: _____ pH___ PaCO2___ PaO2___

HCO3___ BE___ Lactate___ Ca___ Mg___ Phos___

LFTs_____ Troponin___ Other_____

## 03 DEVICES & INSERTION DETAILS

| Device | Site / side | Size/depth | Inserted date/time | Place | Type / dressing due |
|---|---|---|---|---|---|
| ETT / trach | | | | | |
| CVC / PICC | | | | | |
| PIV / A-line | | | | | |
| HD / epidural | | | | | |
| NG / OG / PEG | | | | | |
| Foley / IFC | | | | | |
| ICT / drains | | | | | |

## 04 MEDICATIONS & INFUSIONS

| Class | Drug / dose + units | Route / freq | Conc./mL/hr | Order date/time | Access / remarks |
|---|---|---|---|---|---|
| Reg | | | | | |
| Reg | | | | | |
| Reg | | | | | |
| PRN | | | | | |
| STAT | | | | | |
| Infusion | | | | | |
| IV fluid | | | | | |

**Daily goals: Pain___ Sedation___ MAP___ SpO2___ Nutrition___ Fluid balance___ Mobility___ Main risk_____**

Design informed by AHRQ I-PASS / Daily Goals and SCCM ABCDEF. Local review before clinical use; verify orders and MAR.

## 24-HOUR CRITICAL CARE KARDEX

THREE-SHIFT FOLLOW-UP / TIMED EVENTS & ACTIONS / PENDING WORK / 24-HOUR TOTALS

**Patient:** _____ **MRN:** _____ **Bed:** _____

DOB / age: _____ Sex: ___ Weight: ___ kg Consultant: _____

Period: ___ / ___ / ___ ___:___

To: ___ / ___ / ___ ___:___

### 05 SHIFT SUMMARY

Glucose units: mg/dL / mmol/L

| Record | DAY | EVENING | NIGHT |
|---|---|---|---|
| Date / start-end | | | |
| Nurse / initials | | | |
| Severity: S / W / U | | | |
| HR / BP / MAP | | | |
| SpO2 / support | | | |
| GCS / RASS / pain | | | |
| CAM-ICU / mobility | | | |
| IV + medications (mL) | | | |
| Enteral / oral (mL) | | | |
| Blood / other IN (mL) | | | |
| TOTAL IN (mL) | | | |
| Urine (mL) | | | |
| Drain / NG / other (mL) | | | |
| TOTAL OUT (mL) | | | |
| NET IN - OUT (mL) | | | |
| Glucose: time / value | | | |
| Glucose: time / value | | | |
| Glucose: time / value | | | |
| Glucose: time / value | | | |

S = stable; W = watcher; U = unstable. Enter observed status, not a default.

**24h IN: _____ mL OUT: _____ mL NET: _____ mL**

Care review (done / not done / N/A + time): SAT___ SBT___

Pain___ Sedation___ Delirium___ Mobility___ Family___

### 06 TIMED EVENTS / ACTIONS / RESPONSE

**Date/time | Event / change | Action / who notified | Response / recheck**

**DAY** Date: _____ Hours: _____ to _____

___:___

___:___

___:___

Receiver initials / key points confirmed: _____

**EVENING** Date: _____ Hours: _____ to _____

___:___

___:___

___:___

Receiver initials / key points confirmed: _____

**NIGHT** Date: _____ Hours: _____ to _____

___:___

___:___

___:___

Receiver initials / key points confirmed: _____

### 07 PENDING TESTS / BLOOD / NEXT ACTION

| Date/time / due | Test / blood / task + result | Owner / notified | Action / status |
|---|---|---|---|
| | | | |
| | | | |
| | | | |

Blood: given / standby; component, units, ABO/Rh, expiry / reaction.

Record at the event time; date/time and initials for entries. This summary complements the full flowsheet, MAR and clinical record.
